

hello! 🐾
my name is

**cuddlepup
for adoption**

CASH

age: 5 yrs

sex: MALE

desexed: YES

**a little
about me**

- Cash is an excitable, cuddly, food motivated, sweet, and affectionate boy.
- He adores people and happily shares his love with everyone he meets, always seeking out pats, cuddles, and companionship. He is people-focused and always wants to be included in everything his people are doing.
- Cash loves going for walks and exploring his surroundings, making him a wonderful companion for an active household. However he is a busy-body by nature, Cash likes to investigate his environment and know what's going on before he can fully settle and relax.
- He generally walks nicely on a loose lead when out on his own, but in a group setting, can become competitive and pull to be at the front.
- He is still learning how to interact politely with other breeds and can be overly excited and a little rude during introductions and play. He gets along with other greyhounds but doesn't appreciate being pushed around and may respond if another dog is rude to him.
- Due to food guarding around other dogs (fine with people), he is best suited as a solo pet. So no pocket pets or cats.
- Suitable for children aged 5+ and a home with a small yard.
- He doesn't like confinement or car rides.
