

hello! 
my name is

**cuddlepot
for adoption**

FLORRIE

age: 4 years

sex: Female

desexed: YES

**a little
about me**

- Florrie is an excitable, cuddly, loving and affectionate girl.
- She adores people and wants attention from everyone she meets. She will lean on you to demand cuddles and watch out for her helicopter tail when she gets cuddles.
- She is a bit of a foodie and wants to be around people even off lead.
- She is a beautiful loose lead walker, but can pull a little when she spots a little dog or cat. She does like exploring new places and going for walks.
- She is good around other dogs but can be a bit defensive of her personal space and the fun police at times. She prefers people over playing with other dogs.
- She loves to play with people and will do little spins in excitement when playing with them.
- Is still learning other breeds of dogs. Is fine around medium to large but is still learning little dogs. She will need more training on this once adopted to give polite greetings and to move herself on.
- Is best suited as an only dog home but could also live with an independent and tolerant medium- large dog.
- Is apartment or small yard suitable
- Children 5+
- No pocket pets and cats.
