

Installing Read&Write for Mac

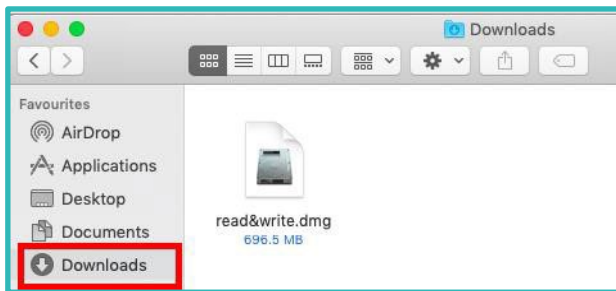

1. Click below to view the preferred system requirements:

<https://support.texthelp.com/help/readwrite-for-mac-system-requirements>

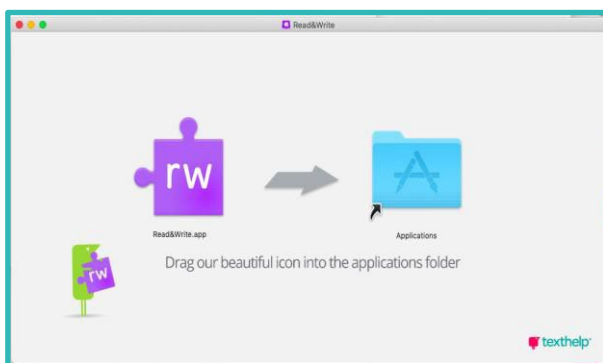

2. Click the link below to access the Read&Write installation file:

<http://fastdownloads2.texthelp.com/readwritemac7/installers/read&write.dmg>

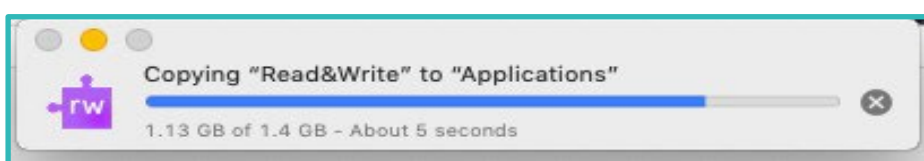

3. Locate the read&write.dmg file you just downloaded (by default, it should be in your 'Downloads' folder), then double click the file to run the Read&Write installer

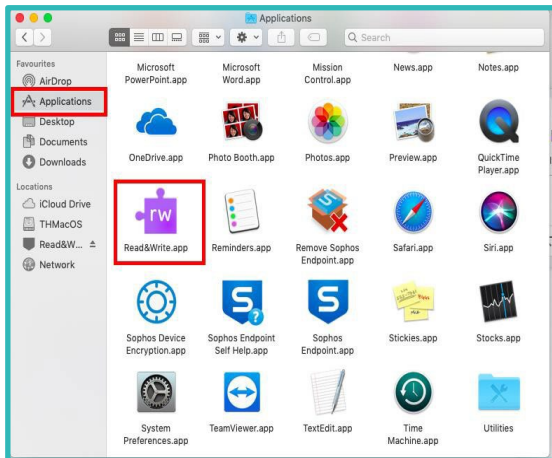

4. Click & drag the Read&Write purple puzzle icon into the Applications folder as instructed.

5. Read&Write installer should now begin installing the program into the Applications folder.

6. Once installation is complete, check your Applications folder for the Read&Write icon. Double click the icon to open the app
